

Activity Recap

I worked: (circle one)

By Myself

With a partner

In a group

Please answer the following and use the back if necessary:

What did you like best about working in this environment?

What advantage did you have over the other teams?

What did you like least about working in this environment?

What struggles did you have compared to the other teams?

Of the other two types of formations (self, partners, groups), which do you think would have been better than what you experienced? Why?
